

#754-14th St. Oakland.

Dear Alude; — This Sunday evening, Gumbo,
otherwise Sam is much occupied with a
rebellious tooth of the jaw enlarging
variety. This is the New Year or rather
another New Year and my boss is in
prospect of having plenty of new work
so I may be satisfied on that account
I wish you all success in this year and
you must not regret that it is here as
all things are for the best. Thanks for the
photos sent for Christmas. I did not know
that Chaussemichie was THE FACADE but
rather that his plan was THE PLAN.
Perhaps I am not up with the latest
criticisms. Mrs. North avows up and down
that when her law examinations are over
she will never never go to school
any more. One of your fraternity sisters
said, wouldn't it be a great joke

if Mrs. North took all her husband's law
business away from him? I intended
to send you something nice for your
birthday but the stores shut up on me
so I may have to send something else.
In any case I wish you many happy
returns of the day. When you get home
and acclimated you will be sure to be
a respected factor in the community. You
must try and take some care of yourself
for a little while longer and then be
restored to your friends. Hoping then find
you in good health and spirits, I am,
your brother,

Aray Morgan
