

Graduate Statistics Studio

Here to Help Graduate Students Succeed:

- The GSS has helped graduate students from over 40% of the graduate programs offered here at Fresno State.
- Offering over 40 hours of consultation in person and online via ZOOM

Providing Support to All Graduate Students:

- Students schedule 50-minute consultations with experienced consultants.
- We hold open lab hours every Friday, allowing students with busy schedules direct access, no appointment needed.
- Our website and online resources provide instructional videos to allow students to answer their analysis questions at home and at their own pace.
- We offer workshops to graduate students with topics including basic data entry and manipulation or calculating and understanding specific statistical tests

Student Satisfaction & Testimonials:

- “She helped me make sense of my data set and had great suggestions on what type of statistical calculation would be best to run for my research. She was friendly, patient, and explained things very well”
- “Very easy to talk to despite my lack of stats knowledge, helped me to visualize and understand the general problems that I’m trying to address”
