137 Riverside Drive
New York

Can land on upper fountain level but regret to as steps of C were with thought of effect from a distance on new road and the continuity of steps has counted on largely for fine effect. Would not landing at foot of circular flight with path and steps going on down into pergola be reason enough for their not landing on pool level.

Julia Morgan

Counted greatly and contentment of slope
seen from distant and ~~present~~ ^{present}

slides on down into jungle - but regret to as
can land on upper ^{front} ~~front~~ level

Slope of C were ~~designed~~ ^{designed} with thought of
a distance on
effort from a new road ~~and~~ counted greatly

~~Continuity of slope for effort from there~~

~~It would not fit~~ has counted on largely for ~~the~~ ^{the} ~~line~~
level landing at foot of ~~of~~ ^{of} ~~circumstances~~ ^{circumstances} ~~for~~ ^{for} ~~flight~~
~~with path~~ ^{with path} ~~steps~~ ^{steps} ~~going~~ ^{going} ~~down into jungle~~ ^{down into jungle}

~~not to lead~~ enough for there not finding an
pool level.
