

(June 2, 1926)

Miss Julia Morgan
Merchants Exchange Building
San Francisco.

I think Eucalyptus trees along road are being planted too close together. How far shall we plant Eucalyptus where Crepe Myrtle where Jacaranda. (?) I advise Jacaranda along south road from new gate up to junction of roads at Chinese Hill if this is the most protected place. Jacaranda need southern exposure with lots of warmth. We could plant Eucalyptus from junction up to house or we could reverse this if latter location more protected. We could plant Crepe Myrtle from new gate along north road to junction and Eucalyptus from junction to house thus completely surrounding Chinese hill with Eucalyptus. The Eucalyptus blooms longer than the others and therefore I think best to have at near house.

2. The gardner has allowed the lantana to be almost completely obliterated by the ivy geranium in the plaza along the esplanade. Consequently the color scheme is destroyed. Can you please get him to maintain that color scheme? Furthermore I asked him to thin out the Heliotrope on B house and he has removed it entirely. He makes me cry! I loved that wonderful Heliotrope and it was as much a feature of B as the Bouganvilla is of C. Can we get the Heliotrope back?

All those wild movie people prevented me from talking to you as much as I wanted to.

Next time I shall go up alone and we can discuss everything.

Nevertheless the movie folk were immensely appreciative. They said it was the most wonderful place in the world and that the most extravagant dream of a moving picture set free far short of this reality. They all wanted to make a picture there but they are NOT going to be allowed to do it.

By the way did you find any statuary from the Exhibition groups which would be available for fountains at the pool and below. I would like to go over those pictures again with you.

Mr. Rossi thinks we can put a gasoline heater for the pool in the same room with the filter. That might be good. If not we can put it right across the road.

Sincerely ,

WR Hearst

P.S. I started this as a telegram but it is too long so I am making it a note. WRH

I think Eucalyptus trees along
road ^{are} being planted too close
together. ~~I don't~~ ~~Please don't sketch~~
~~on~~ ~~showing~~ ~~where~~ shall we
plant Eucalyptus where Crepe
Myrtle where Jacaranda.
I advise Jacaranda ~~from~~
along south road from

new gate ^{just} up to junction of roads
at Chinese Hill if this is the
most protected place. Jacaranda
need southern exposure with lots
of warmth. We could plant
Eucalyptus from junction up to
house or we could reverse this
if latter location more protected
We could plant Crepe Myrtle
from new gate along north road

to junction and Eucalyptus from
junction to house thus completely
surrounding Chinese hill with
Eucalyptus. The Eucalyptus
blooms longer than the others
and therefore I think best to have
it near house.

2. The gardener has allowed the
Santana to be almost completely
obliterated by the ivy geranium

in the plaza along the esplanade
Consequently the color scheme
is destroyed, Can you ^{please} get him
to maintain that color scheme
Furthermore I asked him to throw
out the Heliochrome on B house
and he has removed it entirely
He makes me cry! I loved that
wonderful Heliochrome and it was
as much a feature of B as the
Bourgonville is of C. Can we

Get The Kallisto back?

all those wild movie people prevented me from talking to you as much as I wanted to.
