

00:01:10:09 - 00:01:14:09

Speaker 1

Longer.

00:01:14:11 - 00:01:15:07

Speaker 1

They're not going to tighten up.

00:01:15:07 - 00:02:05:12

Unknown

The way we.

00:02:05:14 - 00:02:19:21

Speaker 1

We actually legally you can fly without the skirt. And this is called a skirt. So we.

00:02:19:24 - 00:02:27:11

Speaker 3

Right here. That's what I'm talking about. That's the part of the skirt. And that it doesn't it doesn't mean anything to the building itself.

00:02:27:11 - 00:02:32:03

Speaker 1

We just got it fixed. If that if that was up in the main part of the balloon, then we wouldn't.

00:02:32:03 - 00:06:08:16

Unknown

We wouldn't be able to fly. Right now. We're going to be going up and down here. Yeah, not at all. I my right.

00:06:08:19 - 00:09:36:11

Speaker 1

Hand's in the festivities right now. We'd like to open the grand opening with one of our proudest things that we have here at San Jose State under the tutelage and direction of Dr. Vernon Reid, the best band in the state of California. Having a big San Jose State welcome for the San Jose State symphonic Band. Thank you.

00:09:36:13 - 00:13:51:11

Speaker 4

And,

00:13:51:13 - 00:14:10:19

Speaker 1

Garcia Band at 3:00, the Vocal Underground, an excellent jazz group. And at 4:00, Roy Rogers and the Delta Rhythm Kings right here at the stage right now.

00:14:10:21 - 00:14:12:22

Speaker 3

Jam. Let's have possession.

00:14:12:22 - 00:14:18:02

Unknown

Of Dr. Vernon Reed.

00:14:18:04 - 00:14:34:24

Speaker 1

About all the many thousands and thousands of people that are going to be using this building and the next year, I'd like to introduce to you the chair of the Board of trustees of the California State University System, Marianne Lansdale.

00:14:34:26 - 00:14:42:11

Unknown

On behalf of the Board of trustees, I'm delighted to be able to welcome everyone to this historic dedication.

00:14:42:14 - 00:14:57:13

Speaker 5

Before I do anything else, I'd like you to meet my fellow trustees, who's been very supportive of this building. Dr. John Kashima Barra.

00:14:57:16 - 00:15:38:28

Speaker 5

A number of years ago, the architectural writer Ada Louise Huxtable coined a new word to describe the happy marriage of form and function. Her word was utility. And that combination of beauty and utility perfectly describes the essence of this magnificent building. This structure is not only one of a kind within the CSU system. It is unique within higher education, the range of activities that will be supported here with the arena, racquetball, aerobics, swimming and so much more assures that everyone at San Jose State will be able to put it to good use.

00:15:39:00 - 00:15:54:20

Speaker 5

Franco Cotter, the Irish writer, tells in one of his books how as a boy, he and his friends would make their way across the countryside. And when they came to an orchard wall that seemed too high and too difficult to permit their voyage to continue.

00:15:54:22 - 00:16:03:11

Speaker 1

This leader and our president, San Jose State President Gayle Fullerton.

00:16:03:14 - 00:16:31:16

Speaker 5

Thank you, Tony. And I want to thank Tony and through him, all the students that he represents who were students here and working hard for this facility, paying fees for this facility, knowing they would graduate before the doors would ever open, but wanting to leave it for those who came after and they would point back and say, well, someone did that for us with the student union in the mid 60.

00:16:31:18 - 00:16:55:13

Speaker 5

And so one generation of students working for those to come and enjoying, but those who came before them had to offer and left for them. This facility is going to be it already is the center of a lot of student life and activity. It's a place where you can let go of the stress, go to the library, and then you can come back and swim or go to the weight room.

00:16:55:13 - 00:17:16:12

Speaker 5

And this is getting a tremendous amount of use. It's also going to be a good link between the university and our community. We have a number of community events that will be scheduled here, bringing people to campus that might not otherwise get to San Jose State. We've been talking with the San Jose Symphony about having some of their pop series here.

00:17:16:14 - 00:17:34:25

Speaker 5

We have our own basketball and other basketball here. This is going to be in part our contribution not only to the campus but to downtown San Jose. I have a couple of people that I want to introduce to you who work very hard to make this happen.

00:17:34:27 - 00:17:57:17

Unknown

First of all, I want to introduce your police. And otherwise it's just.

00:17:57:19 - 00:18:20:09

Speaker 5

Finally, it's my pleasure to introduce to you our mayor, Tom McHenry, and ask him to say a few words about this facility and what he thinks it means to the city that surrounds us and of which we are a part.

We're part of downtown San Jose, and we're very proud to have Mayor McHenry with us this morning. Mayor Tom.

00:18:20:12 - 00:18:24:01

Unknown

Thank you very much. I've often had.

00:18:24:01 - 00:18:51:26

Speaker 1

A lot of competition in my speeches, but that hot air balloon is definitely one I've never faced before. I'm very privileged. Dr. Fullerton, to be invited to participate in what I think is a very important day, obviously, for the university, but for the city in this valley also, you know, Winston Churchill once was asked about someone who gave some very brief remarks, as I've been asked to do today, and he thought for a moment and responded and said this.

00:18:51:26 - 00:19:15:03

Speaker 1

He said he spoke without a note and almost without a point. I want to make sure today that that I do have a point because I've been wanting to say it for some time, and that's namely that I think San Jose State University is one of the best kept secrets in the United States. See the university has been providing to this community goes far, far into the distant reaches of our city and communities.

00:19:15:03 - 00:19:58:10

Speaker 1

History is the real backbone of Silicon Valley is certainly the educational prowess of this institution. The majority of the engineers that populate that very special place called Silicon Valley start right here. And that's something that I say wherever I go and I think, as I say, it's a secret that's becoming less and less of a secret. Secondly, the tremendous pride that the San Jose State University I probably enjoyed the most, and in letting San Jose State football or basketball or the women's volleyball team or any of the other terrific athletic programs, you know, I know not only are they improving and educating student athletes, but they're doing something for the city.

00:19:58:13 - 00:20:11:08

Speaker 1

And I'd like to introduce a friend of mine, the president of the Associated Students, Scott S.A., Scott, I don't.

00:20:11:08 - 00:20:29:21

Speaker 3

Know. What do you think It is great. It's great. Yes. I had some prepared remarks when I first came up, but I you know, I started to thinking when Tony was speaking that this is the kind of thing that is really indicative of what can happen when students in the university with themselves together and work towards a common goal.

00:20:29:23 - 00:21:15:28

Speaker 3

I mean, this is the obvious result. And very.

00:21:15:28 - 00:21:20:02

Speaker 5

Briefly, this will be great.

00:21:20:05 - 00:21:23:15

Speaker 3

Race. Chivalry is not going.

00:21:23:17 - 00:21:36:24

Speaker 1

To put one leg up over here. Okay, Now what I like you're you can hold on to this. Step forward. You got to go there because that's probably the roughest right here.

00:21:36:27 - 00:21:41:14

Speaker 3

It's just kind of like everybody did.

00:21:41:15 - 00:22:02:02

Speaker 1

Watch this rope right here, please. On either side.

00:22:02:05 - 00:26:29:28

Unknown

It is. It's been somewhat cool. Your brain. Mind that I one fan, right? Think that's right. Yeah. They're walking out, having a game with Nobody cares what that guy did. He had to have a drink.

00:26:30:00 - 00:26:37:25

Speaker 3

So that started it off there. And that's just like you said. He started drinking this disease, like I said.

00:26:37:25 - 00:26:46:04

Unknown

You know, And I said, and it really it's really I mean, it's it's.

00:26:46:07 - 00:27:09:22

Speaker 3

Scary the way it works. I mean, they actually scare you know, the way I see it, the way it works, it hit and it actually has a way of actually working its way into people's lives without even people realizing that that's how that's how common it is, so that people are even aware of what's going on, that it's actually moving into their lives.

00:27:09:24 - 00:27:31:26

Speaker 3

So, you know, slow, you know, taking taking its form, you know, and then before you know it, you're you're in this you're in a certain position or or situations happening. And before you know it, you're drinking and using drugs, you know, and then and then the only thing a person could actually ask themselves is laughing, like, what do I do when I get home?

00:27:31:28 - 00:27:58:10

Speaker 3

And I've seen it happen countless times, and yet I feel it needs to be know, you know, back in their mind, they know what happened. You know, it's like they always say, not again or this time was something how they always, you know, seemed like and I myself always thought that it was always I would always blame it on something else, Like I would never leave it on my family or I blame it at my job.

00:27:58:13 - 00:28:21:05

Speaker 3

I would never, you know, say, well, no, I have a problem. You know, it's this, you know. But I was always in denial. Yeah, it's always in denial. And that's not all. It wasn't me or so the pressure of wanting to be or where I live, you know, my shoes were tight, you know? I mean, you always make an excuse for that, you know, that kind of action.

00:28:21:08 - 00:28:29:24

Speaker 3

Yeah. I felt like, you know, it wasn't. It was never my fault. It was always something else or somebody else's fault, you know, until I really, you know, started realizing.

00:28:29:24 - 00:28:35:11

Unknown

That it was me, you know, and.

00:28:35:13 - 00:28:40:05

Speaker 3

Yeah. And that's really hard to actually say that, you know, that that it's actually you.

00:28:40:07 - 00:28:46:06

Unknown

I mean, most of the time people don't like to get that responsibility for their own actions. You know.

00:28:46:09 - 00:29:04:12

Speaker 3

There's not anybody here, especially like how we used to say, you know what I mean? You know, like make you go through this. But it wasn't him, you know? I know that I realize what it was, but just the the fear, you know, that the fear is in my heart to say that, you know, I can't stop drinking.

00:29:04:12 - 00:29:25:14

Speaker 3

I got a problem. You know, I'm an alcoholic and, you know, this is killing me. You know, not only killing me in the sense where it's killing me, my body inside my body, but it's killing me. You know, my it's killing the people. I know it's hurting the people I love and people that care about you know? And that to me, is that that hurts.

00:29:25:16 - 00:29:45:21

Speaker 3

You know, like I said, that affect you the most. That's what I've done to hurt other people and myself and not really the material. You know, I don't get that bad. You know, there's people that you know, that you know, that probably can trust. You can just be nice and not because of them, because in yourself, you know what you've done to me.

00:29:45:23 - 00:30:06:20

Speaker 3

And that hurts, you know, and dirt and pain hurts me more than that then, you know, now that I realize that I do have a problem, the same respect, it's just like they give you a rough shot. yeah. Never get to see it. So what's the limit? And you know, your family knows what you are. You dig?

00:30:06:20 - 00:30:28:14

Speaker 3

You run with my mom, you don't run enough. Yeah. She brought you up? Yeah. She knows what's happening. You know, I've. I got a brother. The sergeant really has to go down every day. You know, that's the. That time you needed 20. You. I need to know for that time he's on Facebook, but I've got to get my someone saying this.

00:30:28:14 - 00:30:37:08

Speaker 3

What? This guy here, that's the reason why he's been game like this. He was sober for so long.

00:30:37:10 - 00:30:41:07

Unknown

Mean what we talk about is.

00:30:41:09 - 00:31:07:03

Speaker 3

We bring more than one break on the book. You know what does that mean It was probably just the in 1983 after breaking 40. I mean so does myself I supported this person was an way my friends used to tell one point of view. I look at it, you see what I'm trying to do, see what I did.

00:31:07:03 - 00:31:37:26

Speaker 3

I just myself, that's you always want to church and that's gone now all saying. But I didn't ask him to help us. But you know so I knew what I she was me. That's the way I feel. I can never she four years ago. I need help because she told me what one helpful I helped myself like the Bible said that definitely you have to show for who was I was.

00:31:37:26 - 00:31:44:21

Unknown

I to say Yeah, that's got to happen.

00:31:44:24 - 00:32:14:19

Speaker 3

For me to admit know it. It was hard. Hard for you because I have never admitted that the world is yours to me when you try to make.

00:32:14:22 - 00:32:32:23

Speaker 6

As you can see, this is one of our vans that we don't have a has. We have we have three of them. And they have been purchased through the through the years that we've been here. We don't have a has been existence for for 11 years now. We started in 1979. It is one of the components of the job from the one that it's sponsored by them.

00:32:32:26 - 00:33:02:29

Speaker 6

As you know, that form started here in Skillshare, this chapter, at least in 1969, if I'm not mistaken, And in 1979, they were approached by the county to provide alcohol services to the company that Villanueva is the only program in this county to be providing services to the Hispanic. We have a contract with a county and we are funded by them, of course, and we provide services to 33 individuals.

00:33:02:29 - 00:33:23:24

Speaker 6

Our capacity is 33. We also provide services to the handicapped, those people that are in wheelchair. And as you know, they also have problem with alcohol and drugs. We also provide services to the age, those persons that are 64 years and over what requirements or whatever requirements we might need or they might need in order to qualify to seek admittance into the program.

00:33:23:24 - 00:33:47:27

Speaker 6

I and Villanueva is that they must first have at least 72 hours of detoxification. We have detox services here and like many other ones that when that happens, then they come into the program, they fill out an application at the time of the completion of that, then an individual, one of the staff persons will give them an interview and the final say so is given by me.

00:33:48:00 - 00:34:18:19

Speaker 6

We look for three things, usually ones that there's not no serious violence in their records and hopefully that they have no moral charges and things of this nature. As you can see, we have in our facility, we have visited here on weekends, Saturdays and Sundays. We have other families come in, women and

children. So this is the reason why we screened people very, very closely so that in order for us to protect those individuals, we also have women working here.

00:34:18:21 - 00:34:42:13

Speaker 6

We provide services seven days a week, 24 hours. We have a staff of 14 people and we seem to want the environment or the feeling of this place to have that home type atmosphere. And as you can probably have seen, or at least you have heard, we have, which are local units. And what that gives.

00:34:42:15 - 00:34:43:00

Speaker 3

The.

00:34:43:00 - 00:35:06:10

Speaker 6

The feeling that we're out in the country, which we are and we are not. We're on the east side of San Jose, located at 22 Quimby Road right across East Ridge. We are not centrally, but neither are we out in the boonies. This is the one of the most ideal places that I have seen locally that we could have shared a place to provide the services that we are providing.

00:35:06:13 - 00:35:25:19

Speaker 6

As you can see, the facility sits on a on a quarter acre that is owned by the San Jose GI Forum and this house has been worked on. A lot of the work is done by volunteers. A lot of the material that goes into it is done by volunteers. We also provide the services of of of close closet.

00:35:25:21 - 00:35:56:09

Speaker 6

This close closet, what enables us to do is to provide clothing for some of the families that are left out when their husband have to come into the program. We also provide the clothing for those individuals that come in from the streets that have nothing but what they have on their backs. Aside from that, we also provide the food housing emergency, such as a refrigerator and beds, things of this nature.

00:35:56:12 - 00:36:25:19

Speaker 6

As you know, when the individual leaves the house, sometimes he has to lose his job. When he loses a job, the family is the one that suffers. So through our volunteer component, which the our head volunteers to us, she is able to to secure these necessities throughout the county and throughout the community. We also have to couple a two big functions that we have, which is the Christmas party, which last year we provided services and Santa Claus in presence to the community.

00:36:25:22 - 00:36:46:24

Speaker 6

And I think we served a price of between 150 200 children besides our families. This is one of the big functions that the kids in the community know about it they look forward to. We've been doing this ever since we open our doors. We also have a staff which is on Thanksgiving, which we also invite the families of the residents here, and residents have graduated from a program.

00:36:46:24 - 00:37:10:08

Speaker 6

They're all welcome. We always have to always manage to have a full house for these two great functions during the year. We have some outings for these individuals. We usually like to take them out to deep sea fishing and we take them out to the park. This kind of a things is what we do so that they can know other things to do other than just to just a lot of us which are accustomed to doing.

00:37:10:11 - 00:37:35:04

Speaker 6

And as you know, part of this film prior you saw one of the groups and some of the concerns and some of the things that these individuals say. It is very difficult, like one individual said, that is for for that individual to accept that he is the main problem of his drinking instead of having to to accuse someone else or fault someone else, that his drinking is caused by that.

00:37:35:07 - 00:38:01:03

Speaker 6

But then again, if you understand that the the Latino it's very difficult for that individual to admit that he does have a problem. And as a rule, we usually we usually accuse someone else or put the fall

somewhere else. So this is some of the things that we tried to to make these people act, to acknowledge that that the problem my light with them and it is it is line with them.

00:38:01:05 - 00:38:23:08

Speaker 6

I've been in this business probably about 20 years now working here, working in Sacramento, working in South County and how long I'm going to continue working, I don't know, as long as I probably can walk up. But this is my life. I love it. I am a consumer of these of these services. I have gone through the system and I can say that, hey, it works.

00:38:23:10 - 00:38:49:00

Speaker 6

And as you can see, we're on the front of the house now and we have our our emblem here GI for him again, like I said, we're sponsored by them. We do fly both flags. And so this is a bilingual program. Primarily. We are here to serve the Hispanics, but anyone is welcome. That qualifies. Now, I previously mentioned that in.

00:38:49:00 - 00:38:49:17

Speaker 7

Order.

00:38:49:17 - 00:39:16:14

Speaker 6

Or gave you some of the the criteria that is that is needed for you to enroll into our program. The manner in which the person pays while he's here is we charge on a light, on a sliding fee scale. If the individual receives any type of an income, then he is his fees are judged on the the size of his family, his income.

00:39:16:17 - 00:39:39:23

Speaker 6

And then we figure out what is going to cost them to stay here. If the individual has nothing, then the county pays for his stay while he's there. The county provides them or provides a program with food

stamps, and as the individual starts to work, then he must then pick up his the cost. And then we then discontinue his food stamps allotment.

00:39:39:25 - 00:40:18:03

Speaker 6

But no one has denied whether he has any money or not. It's a type A program that the services are available to anyone that seeks this type of help. Now, this corner of the of the House is also, as you can see, this is also the backyard of the facility. This area is used for our volleyball games. We level this out some years back.

00:40:18:10 - 00:40:38:02

Speaker 6

We are looking for some grants, hopefully. So that we can really fix it up concrete, perhaps to put in some sand, whatever it takes. But as it is, the guys take care of it and we do compete against other programs. So this is of course, the back of the house and you might be picking up some godliness in some areas.

00:40:38:04 - 00:41:02:11

Speaker 6

And like I say, this gives us a home atmosphere and. We're allowed to keep these these files back here. So it really makes it nice. It's not, again, I like to repeat, is not centralized downtown, but then again, we're not really outside on the boonies. We are very proud of this facility and we make this the people here to also have the same feeling.

00:41:02:11 - 00:41:26:18

Speaker 6

It's it's their programmer is a programmer and it is maintained with with taxes. So we make them let us feel, you know, make them feel that they are part of it and it belongs to them. So over on this side, we have our our clothes closet that I mentioned to you about, which is over here we have where we provide a library service for them.

00:41:26:20 - 00:41:57:19

Speaker 6

they have a dryer. We have a washer that back then, if you can see the, the right corner of the house is you can see some ramps back. eight or nine years ago, the county, the county, picked us as a program to provide the services for the handicapped as, as you, as I mentioned a little while ago back there, we have a ramp where the van will come in.

00:41:57:20 - 00:42:22:00

Speaker 6

We have ramps going into the room. We do have we are licensed to provide services 2 to 3 handicapped and to also three age people. So it's something that that we work very closely with the we work very closely with the with the state. We are licensed and certified by the state of California, by the Department of Alcohol and Drugs.

00:42:22:02 - 00:42:45:29

Speaker 6

And every year they come around and they see that we are maintaining and up and and complying with our contract. And so once they see this, then we are licensed for an additional 12 months. The county monitors are not on a on a monthly the audit our books on a monthly basis. And in the 11th year they found no discrepancies whatsoever.

00:42:46:01 - 00:43:05:29

Speaker 6

So I feel that this program really is one of the best. The success rate has been great. It a lot of our people that have graduated come back. Some of them are back on their job, some of them have opened businesses and they come back and tell us how great they're doing. This is what makes us really feel good.

00:43:06:01 - 00:43:46:27

Speaker 6

This is the rewards that people in this field, perhaps it's what makes us keep it going. I guess we don't know what keeps us going, but when this happens, believe me, this is great. So this is the casino because this is where we all get a little heavy. And you can see one of our guys here is preparing the coffee for the meeting right now in the in this casino.

00:43:46:27 - 00:44:13:04

Speaker 6

We have, we have been trying to raise some funds. We're trying to renovate it. As you can see, it's not the best one. However, it does the job right now. We was, we was awarded a grant to purchase that. So it was gotten through a committee, through Hewlett Packard. The county then came in and installed or gave us a grant also for the hood and for the for the smoke filter up here.

00:44:13:06 - 00:44:40:24

Speaker 6

As you can see, I have to go out and solicit solicit additional funds, grants from different corporations in order for us to maintain the program the way that we would like it to be maintained. Again, right now we are we are seeking the funds to renovate this the kitchen and and another eight or ten months. We have a a alcohol conference that's going to be taking place here in San Jose.

00:44:40:24 - 00:45:05:04

Speaker 6

And it's going to be a three day function. And through and through this conference, we hope to generate enough funds, hopefully to even expand the facility where we can add additional beds. But this, again, is probably been another 18 months away. We also have on an annual basis, we started having a golf tournament and this also generates funds for us to do additional things for what we want to do.

00:45:05:07 - 00:45:25:13

Speaker 6

As you know, funding from the government only gives you money to to operate for operations of the program, not for the not for the additional and necessities that we need. And the additional assistance would be like upgrading the house of this type, this nature of things. So so this is what we have is all about and we are very proud of it.

00:45:25:16 - 00:46:10:06

Speaker 6

And see David as one of our employees. He's this is his office and this is where all the brain this is what they call the think tank. This is where the computers that and any new ideas, this is where they originate. I bring a rough draft of something to David. David puts it on a computer. I assume that that computer doesn't work by itself.

00:46:10:09 - 00:47:21:21

Speaker 6

Now, I'm just kidding. But David, like I say, this is the this is the office where where the ideas originate, the door.
