

admissions, evaluations, and records supervised by the Associate Dean of Students (Admissions-Records); (3) counseling, testing, scholarships, loans, veterans affairs, and foreign student advising supervised by the Associate Dean of Students (Counseling-Testing); (4) medical consultation, treatment, and campus sanitation supervised by the Director of Health Services; and (5) educational, business and industrial, and student placement supervised by the Director of Placement. These services are described in more detail elsewhere in this catalog.

COUNSELING

Admissions Counseling. The Admissions Office provides counseling to assist students in making application, in understanding admission requirements, and in utilizing the services of the college during the admissions process. Problems concerning evaluation of previous academic record should be directed to the Associate Dean of Students (Admissions-Records).

Vocational Counseling. The Counseling Office assists students in self-appraisal of their unique interests and aptitudes and in their search for a vocational goal for which they are best fitted. Psychological and vocational tests are used as needed. A library of vocational information is maintained, and each academic department gives vocational counseling pertinent to its field.

Educational Counseling. Each student is assigned a faculty adviser in addition to the services of the Counseling Office. The student's adviser assumes special responsibility for the student's welfare and helps him plan his academic program. The student uncertain of his choice of an academic major is assigned to a general adviser until a definite academic goal is chosen; thereafter, the adviser is a faculty member in the field of the chosen major.

The Counseling Office assists students who are failing to meet scholarship standards. Counseling and testing are designed to help students to discover weaknesses and to plan remedial measures.

Personal Counseling. The Counseling Office provides services for students with adjustment problems of a personal nature. Clinical psychologist services are available in the Counseling Office and limited psychiatric consultation is available in the Health Services Office.

Foreign Student Counseling. Special services are provided in the Counseling Office for students from other lands.

HEALTH SERVICE

The objective of the Student Health Service is to keep the student in a state of optimum health, both physically and mentally, so that he may realize to the fullest the opportunities afforded by Fresno State College. Health services are sponsored jointly by the college and the student body, the latter participating by means of a \$2 health fee each semester.

The Health Service is housed in its own building, with four well-equipped doctors' suites, physiotherapy, laboratory and X-ray facilities, nurses' treatment rooms, secretarial office, and waiting room. The hours the Health Service is open each school day, during which time registered nurses are on duty and physicians are available for consultation, are posted at the entrance to the building. Many medical specialties are represented among the part-time and full-time physicians, affording a high standard of medical care.

During hours when the Health Service is closed, a qualified student may contact his own physician, in which case the Health Service will allow \$5 toward the cost of one office visit or \$10 toward the cost of one residence visit for any one illness. Should hospitalization for a qualified student be necessary, the Health Service will allow \$10 per day for five days toward the cost of hospitalization which is not otherwise covered by insurance. In addition, an excellent student sickness and accident insurance policy is offered through the Health Service.
