Letter september eighteenth received on old springshill please use  
as many conifers as possible 2//California black walnut trees  
grow very high they will obscure views if planted too near bathhouse  
prefer oranges and pomegranates and semi tropical plants there  
to harmonize with semi tropical architecture black walnut good  
for windbreaks 3//important to have orchard in front of A and C  
beautiful therefore advise oranges and such evergreen fruit trees  
for foreground 4//sequoia sempervirens should be planted below  
house A in damp places gigantia dont need damp after once started  
would like to see large flats far below A covered with these  
trees so as to make wonderful picnics grounds and camping  
spots 5//where are we putting walnuts almonds pecans etc they  
should constitute a group by themselves with perhaps olives
