CONGRESSIONAL RECORD: FACTS THE GOP CAN'T DENY

By John M. Bailey

This issue of the Democrat gives you the bare bones of a great story of political teamwork between the Congress and the President, fighting against adroit partisan opposition.

The tables on the ensuing pages show you:

- The legislative achievements of a Congress which has acted to fill the vacuum created by eight years of Republican drift and confusion.
- The partisan obstructionist record of the Republicans in Congress who voted overwhelmingly against progressive measures to get America on the move again.

The facts are given to you without rhetoric or oratorical embellishment. They are facts that the Republicans cannot deny. They can seek to explain them away; they can make excuses; they can pretend that they were for programs which were just as good; but they cannot deny these facts which show their votes against the programs the people gave John F. Kennedy a mandate to bring into being.

Votes Against Progress

The record on these pages gives the facts on the Republican Party as a whole and it shows how individual Republicans in the House and Senate voted against progress.

THE DEMOCRAT is published once a week by the Democratic National Committee, 1730 K Street N.W., Washington 6, D. C. Subscription rates are \$1 per year, but there is a special charter rate of 50 cents for subscriptions entered in blocks of ten or more. Permission is granted to reprint all articles in full or in part.

These Republican obstructionists cannot be voted out of the Congress until 1962, in the case of the House, and even later, in the case of some Republican Senators. But the time to put their feet to the fire is now! Now is the time to make their obstructionist

Congress. We must make certain that every American family knows that it is more secure and has greater opportunity for a good life as a result of this vigorous beginning of the Kennedy Administration.

Circulate the Facts

But let us also be sure that every voter knows that the Republicans in Congress were not partners in this teamwork, that every voter knows that every inch of progress in the last eight months has been ground won over bitter partisan opposition by the Republican Party.

I urge every Democrat to circulate these facts. Show them to your friends and neighbors. Post them wherever you can find a bulletin board. Challenge any Republican speaker to deny them or to explain them.

Madison Avenue provides the Republican Party with a hard and persuasive sell and some great slogans. The Democratic Party relies on its product—the results it has achieved for the people—to do its selling. Here, in the jargon of Madison Avenue, is a testing laboratory report on the two competitors. If you make good use of it, I think you will be able to demonstrate to the voters that the Democratic Party has a great deal more to offer than Brand X—the Republican package of inaction and obstruction.

Let's get these facts to the people!

The Nashville Tennessean

record known to their constituents. Now is the time to call upon them to try to explain their partisan efforts to thwart the will of the people. Now is the time to let them know that if they continue their sabotage and road-block program in the next session they are driving the last nails into their political coffins. Perhaps we can add a few votes to the small Republican minority which saw the political wisdom of supporting the President.

We must, of course, make certain that every American family understands the accomplishments that teamwork between the Congress and the Executive Branch has achieved in this
