Deliver to Miss Morgan impossible to allow men on Hill to wander over the ranch or to fish or hunt this does not make their Hill a prison at all it merely means that they shall confine themselves to their legitimate business on the property if you hired a plumber to fix your bathroom you would not expect him to be wandering around your parlor or reading your books in the library we do not even allow indiscriminate hunting or fishing by guests on ranch it is unnecessary therefore to go into the matter that some of their hunting or fishing has been of a character which would land them in jail if we complained to the sheriff please definitely instruct Washburn to kepp his people where they belong and off rest of ranch or discharge them and this applies also to Washburn I am sorry but a very definite stand is necessary in such matters to protect the property

Have forwarded copy of W R Hearst
this to Mr Lee to show Washburn as per WR's instructions
