

Yuh,
mailed to Santa Monica

November 23, 1928.

Mr. William Randolph Hearst,
San Simeon,
California.

Dear Mr. Hearst:

We received your telegram in regard to the marble hand rails and will try a similar design combining also the lamp standards if workable.

Mr. Joy sent the enclosed letter with one for the office here. It took him some time to find himself there. But I imagine he has made up for any apparently lost opportunity.

Yours very truly,
