

EXPERIENCE,
KNOWLEDGE AND ACTION
SHEINBAUM
FOR CONGRESS

**Good will, generalities
and just being there
are not enough.**

**STANLEY K. SHEINBAUM
will speak out and act
in the Congress**

THE ROLE OF CONGRESS

"Congress needs men who understand the constitutional checks and balances, who will fight to restore the eroding power of the legislative branch."

VIETNAM

"We are still the world's greatest power. We must not act from fear, but with the courage appropriate to our power. We must stop what we are doing in Vietnam and let the Vietnamese determine their own destiny. We should apply one-tenth of the current \$30 billion yearly cost of the war to developing economically and socially stable societies in Vietnam and Southeast Asia."

CIVIL RIGHTS

"The Bill of Rights, with its guarantees for the individual, is the source of America's strength as a democratic nation. Civil rights are individual and personal rights. Indifference and callousness have denied these rights to Negroes, Mexican-Americans, and Indians.

"We know what can be done about jobs, job training, city reconstruction. We need a Congress which will implement these plans. Until we elect such a Congress, America will be less than it claims to stand for. All of us benefit as minority people become productive members of society."

VIOLENCE AND CIVIL DISORDERS

"Racism based on fear and hopelessness divides our country . . . We cannot legislate away prejudice, but we can legislate away the causes of discontent. Only when each man and woman has an education, job, home, and voice in his own community will violence cease. I endorse the recommendations of the President's Commission of Civil Disorders."

LABOR AND THE ECONOMY

"Too many people still fear that the end of the Vietnam war means recession and fewer jobs. Just the opposite is true. The war is an economic burden carried by you and me in the form of higher prices, higher taxes, higher interest rates, and a weaker dollar. Peace would break the inflationary bottleneck, release skilled workers now wasted in war production and redirect them to more essential production in transportation systems and the rebuilding of cities."

"Farm workers must be given Social Security and the right to organize. Farm and service industry workers must be brought under the protection of minimum wage laws. Section 14-B of the Taft-Hartly Act must be repealed so states cannot prevent union shops. Secondary boycott restrictions on building trades unions picketing construction sites must also be repealed."

OUR NATURAL ENVIRONMENT

"We need more and better public beaches and parks so that we can enjoy our leisure. The Redwood Bill should be passed to preserve these magnificent California trees, and the Land and Water Conservation Fund must be enlarged to create more parks. The Santa Barbara Channel Islands should be developed to protect a precious natural resource for the enjoyment of all. At the same time, legislation is required to tax those responsible for pollution as when seepage from the offshore oil rigs damages our beaches."

EDUCATION AND PROPERTY TAXES

"Educational and community requirements have impossibly increased property taxes with no end in sight. The Heller Plan, which would return federal revenues to the state and local levels could drastically reduce the burdensome property taxes while enabling California to develop its educational facilities to meet the needs of this dynamic state."

STANLEY K. SHEINBAUM **will bring to Congress** **experience and action**

AS EDUCATOR he taught at Stanford University, University of California at Santa Barbara, Michigan State University, and is a Fellow (on leave) of the Center for the Study of Democratic Institutions.

AS BUSINESSMAN he applies that knowledge as officer and director of three major businesses.

AS CONSULTANT AND PUBLIC SERVANT he has advised the Government of South Vietnam; was coordinator of the MSU Technical Assistance Advisory Group in Vietnam, and has been consultant to several state and federal agencies.

AS JOURNALIST he acted to expose the perjury of the Greek dictatorship, leading to the release of former Premier Andreas Papandreaou; to bring to light CIA infiltration into American universities; to dispel the myth of Cambodian support of North Vietnam by a personal inspection tour.
