## the weekly roadrunner

VOLUME 1, NO. 28  
May 17, 1971

### PROFESSIONAL ACTIVITIES

Mathematics Chairman, Robert Hunt, is co-author of an article "Solution Behavior for General Self-Adjoint Differential Equations" in the December, 1970 issue of the *Proceedings of the London Mathematical Society*.

Dr. Lloyd Seaton recently presented an article for publication to the *National Public Accountant*. The article, entitled "Toward Effective Recruitment", has been accepted for publication in a future issue.

### ANNOUNCEMENTS

#### STAFF REPRESENTATIVE

#### ELECTION

Don't forget to cast your ballot in the May 17 election for the 1971-72 non-academic staff representative to the College Council. Voting can be accomplished by eligible staff members in the Office of the Dean for Administration (Adm. 107) between the hours of 8 a.m. and 6 p.m.

Since Mr. Paul Castro has been nominated as a candidate for the office in question, his assignment as chairman of the balloting committee has been taken over by Mr. Schasteen at the request of Dr. Secor.

#### PREREGISTRATION

Preregistration of continuing students for the Fall Quarter takes place May 12-25. Students who preregister will go through the registration line next fall ahead of students who have not preregistered. The College is attempting to devise procedures so that each preregistered student will have a class card for each of his preregistered courses included in his registration packet. This would mean that he could go through registration very rapidly if he did not choose to make any alterations.

PREREGISTRATION  
(Cont'd)

in his program and that if he did want to make a change, he would have access to the registration process prior to any student who did not preregister.

The nature of these new procedures is such that it seems it would be clearly disadvantageous for any presently enrolled student planning to return next fall not to take advantage of the opportunity for preregistration.
