A rumor has been spread that men of this camp have shot deer on Mr. Heart's property & have used powder in the trout streams.

Whether there be any foundation for this rumor or not it is necessary to be very careful not to do anything that could lend support to this rumor.

Do not carry firearms about the ranch at any time.

Observe the game law strictly in fishing & if ever any objection is offered by any one connected with the ranch to taking fish from the streams, be so good as to comply with their wishes.

Be careful to close gates behind you.

And above all things avoid the risk of starting grass fires. A single match - a discarded cigarette, may start a very disastrous fire.
