

00:00:02:09 - 00:00:11:01

Speaker 1

Pistachio.

00:00:11:03 - 00:00:19:02

Speaker 2

Meatballs. I never go for insurgency topics. I concentrate on subjects, but the one that struck me as being.

00:00:19:02 - 00:00:21:20

Speaker 3

The most important is the future. The future of.

00:00:21:20 - 00:00:22:16

Speaker 2

Ourselves.

00:00:22:18 - 00:00:25:24

Speaker 3

And our children. And I promise, children.

00:00:25:26 - 00:00:45:22

Speaker 2

In the past, as their community has been followed by the stigma of ignorance and of poverty that comes back to the latter last three when in control, by assisting them in their lives the only way possible. But life like this is not living but existing. This thing started when spammers came to Mexico and left the land.

00:00:45:22 - 00:00:46:25

Speaker 3

And the people.

00:00:46:27 - 00:01:14:06

Speaker 2

Of their of their wealth and prosperity, but most importantly of their pride, the part that had been stolen for generations and generations of prosperity and success, the way, their way. Proud Mexicans were forced into slavery, much like the African people were. They were bonded and stripped of everything that they native Spaniards with and with deadly black people as they had conquered, they settled the southwest.

00:01:14:08 - 00:01:23:23

Speaker 2

And so where people came to this country. As time went on, our people were made to conform to the ideas of majority. That's I.

00:01:23:25 - 00:01:32:08

Unknown

I got this race.

00:01:32:11 - 00:01:58:07

Speaker 2

We know this, but this. And yet when I was not just an artist, remember I said, yes, ma'am, this is my that the others can only see what is. They put that sense into that. And that is. But Latinos became this thousand years. So Primero expressed concern how much I was my thing. But of course I look state.

00:01:58:09 - 00:02:02:04

Speaker 5

First I would like to say experts. First, I would like to express.

00:02:02:04 - 00:02:31:16

Speaker 2

Myself by saying I am a Latina with lots of pride. I say, well, I take who I am and who I am. I sustain good, I said emphasis. I thought of myself Latino Americanos said I want to invoke that particular moment. Carlos principle states even that people that most desire eat the money that para those are going to those.

00:02:31:18 - 00:03:00:12

Speaker 2

And if you say this can family maintain and operate cinco the mile in muchos autos must I need to get those Latino samples out of cuenta? The Lexus then said, you know, my son. Yeah, that I think that's most appropriate place. And I'm I started others but I said yeah I know. So in that issue that such a cool so that it existed in this world of Latino.

00:03:00:15 - 00:03:29:20

Speaker 2

That is why we thank you, United States, for all social, cultural events in the Latin world in which you have committed to having mutual convenience with our neighbors, Central America, as well as South America and all those companies that have to in so Latina Young Mutual School of Think was my thank God. Okay. So if you look.

00:03:29:22 - 00:03:59:15

Speaker 2

Inferior of no real value. Inadequate less in size. Is this society's definition of our people. Although our rapid growing population does not fit this definition of minority, we are constantly labeled. So how ironic that a minority with such a grand population does not play a major role in our society. What could possibly fuel society's perception of our people?

00:03:59:17 - 00:04:32:27

Speaker 2

Could it be that our high unwanted pregnancy rate and high rate of mothers on welfare, these society stereotyping of our culture? Does the fact that our children have one of the leading high school dropout rates and one of the highest representations in jails, contribute to society's negative perception? Can we link our children's indulgence in drugs and promiscuity? With last year's 75% increase in Aids among Hispanics, are we our own enemy?

00:04:32:29 - 00:05:03:04

Speaker 2

Are we heading for a slow annihilation of our people? Whether these statements be true or not, we have bet to wonder what could happen to our people. In order to ensure the existence of our race, we must first change our attitudes, take responsibility for our actions, and take control of our future. Our people have been brainwashed by society's stereotyping for so long that I feel we have lost heart to the point where we've given up.

00:05:03:07 - 00:05:30:17

Speaker 2

Many of us feel that because we are Mexicans, according to society's definition, that we are bound to fail. This attitude must be changed. Starting now. Not only must we change, for must we change our attitude, but we must also extinguished our notorious statistics. If we ever want to make a difference and have a voice in society, we must change our destructive actions into constructive ones.

00:05:30:19 - 00:05:44:10

Speaker 2

We must set higher standards for ourselves, in our lifestyles, in our education, and in our relations with others. We must clearly define our goals and concentrate everything on reaching those goals.

00:05:44:13 - 00:05:52:29

Unknown

That's all I have.

00:05:53:02 - 00:05:55:10

Unknown

I shall sentence.

00:05:55:12 - 00:06:26:01

Speaker 2

Good evening, ladies and gentlemen, members of the GI forum, distinguished judges and Your Majesty, I thank you for this opportunity which you've given me to speak about the role models in my life. My

father, Rudolfo Sanchez, is a strong and admirable man. His inner beauty seems to shine and brighten the lives of the people around him. Having come from a family of Mexican descent with only an eighth grade education, he still pursued his dreams and went on to achieve the goals which he had set for himself.

00:06:26:04 - 00:06:43:21

Speaker 2

My father, with his strength, sensitivity, dedication and hard work, has beaten the odds against him. He's bought a home he successfully raised and provided for a wife and seven children, and he's even found time for community services for this, my father could be.

00:06:43:21 - 00:06:45:15

Speaker 3

Considered a role model.

00:06:45:17 - 00:07:06:04

Speaker 2

A role model can be defined as a person who plays a conspicuous part or tasks in public life, and leaves a pattern or standard which others can follow. For the past 28 years, my father's worked as a sanitary engineer, which alone is a very strenuous job. But along with his job, he later took on the challenge of helping the youth of our community.

00:07:06:07 - 00:07:34:27

Speaker 2

For the past 13 years, he spent his time organizing and leading a Christian musical group. With this group and their music, he hoped to touch the hearts of the young people in juvenile hall. He would counsel and bring Bibles for them to read, with the intentions of helping them to understand life and how to deal with it. I have learned from my father that the happiness working with people brings to him should be felt by everyone sometime during their lives.

00:07:35:00 - 00:07:58:18

Speaker 2

I am proud of this man and I'm glad to call him my father. There are other people in this community, so my who I look up to and consider as role models. One such man is Rico. Check on the Mexican newscaster on the channel seven news. Through his work, he has taught me to have pride in my heritage and to always do my best to help my brothers in need.

00:07:58:20 - 00:08:14:10

Speaker 2

And one other aspect he showed me is the importance of a good education with hard work, high goals, endurance and self pride. We, the Mexicans of our community can all reach the top.

00:08:14:13 - 00:08:39:20

Speaker 2

As written in Isaiah 55:11 so our are my words that come out from my well. They will not return to me empty, but will achieve the goals which I have set for, but will achieve the goals for which I sent them.

00:08:39:23 - 00:08:41:10

Speaker 3

Gina Vieira.

00:08:41:12 - 00:08:48:18

Speaker 5

Do you realize that drugs are. Do you realize that children have not been educated.

00:08:48:21 - 00:09:08:24

Speaker 2

By the use of drugs during junior high school? I feel. Punishment for students. Smoking marijuana in the bathroom was not. I start over.

00:09:08:27 - 00:09:28:27

Speaker 2

Do you realize that children have not been educated by the use of drugs? During junior high school, the punishment for students smoking marijuana in the restaurant was to shut down the facilities for at least three days. I feel as that that.

00:09:28:29 - 00:09:31:07

Speaker 2

I would say this is not the solution.

00:09:31:07 - 00:09:32:26

Speaker 3

To the problem. I feel.

00:09:32:26 - 00:09:35:13

Speaker 5

That schools should not only have sex and driving.

00:09:35:13 - 00:09:53:25

Speaker 2

Education, but also the drug awareness class. This class will consist of. The effects of drugs to one's health and also how women can enjoy life without these drugs.

00:09:53:28 - 00:10:06:13

Speaker 2

Oral communication and research reports will be given for the students to search to explain themselves throughout this class.

00:10:06:16 - 00:10:12:29

Speaker 5

They will not only aware the students how dangerous students, but also educate the students how.

00:10:13:04 - 00:10:14:23

Speaker 3

Drugs are used.

00:10:15:00 - 00:10:26:20

Speaker 5

Daily on the streets. The people who will be responsible for educating these students.

00:10:26:22 - 00:10:35:07

Speaker 5

To our peers could bring up the issue at a school board. And to me at this appropriate time.

00:10:35:10 - 00:10:47:08

Speaker 2

Distinguish which teachers will be most responsible to those drug awareness spread. I feel that science and psychology department.

00:10:47:10 - 00:11:00:04

Speaker 5

Must be reliable sources to explain thoroughly. This. The situation that has been brought upon us daily. We not only need to to educate students.

00:11:00:07 - 00:11:05:02

Speaker 2

But the support of our parents as well.

00:11:05:04 - 00:11:09:15

Speaker 2

We as children, young adults should feel comfortable discussing.

00:11:09:18 - 00:11:17:29

Speaker 3

All issues concerning drug. Communication is the main source.

00:11:18:02 - 00:11:33:21

Speaker 2

The main factor for a strong relationship between one another.

00:11:33:23 - 00:11:44:24

Unknown

And good evening, ladies and gentlemen. Members of the class judges and Your Majesty, when I started saying it, as you say, you.

00:11:44:24 - 00:12:19:28

Speaker 2

It is never that die for classes. It was something that started in this area of life that if you could it. This evening I would like to see that education. Why is education important? Okay. And sympathetic. But as you can see, it, education is a knowledge and understanding that is necessity in order to survive. In our world today, there are many advantages that we have to get educated.

00:12:20:00 - 00:12:52:15

Speaker 2

For some reason, many people do not take advantage of the opportunities offered by the development of education. Statistics show that a high percentage of students do not graduate from high school, and the majority of those in Hispanic background. Statistics also show that the majority of the workforce availability will be comprised of primarily minority group members, and that Hispanics will represent one of the largest groups.

00:12:52:17 - 00:13:02:18

Speaker 2

We will be the people that businesses and corporations will be looking upon to higher and to take leadership, both.

00:13:02:20 - 00:13:29:25

Speaker 2

Us parents can work with not only your children, but with teachers, schools and organizations. We must encourage and accept high expectations and get involved with our education. To understand that we must have morals and instruction, discipline and most importantly, to qualify for many of life.

00:13:29:28 - 00:13:30:26

Speaker 1

We will continue to.

00:13:30:26 - 00:13:39:03

Speaker 2

Dream and to achieve goals because we are the future.

00:13:39:06 - 00:13:46:08

Speaker 2

The starts in the southwest on the same criteria. I suggest that he has an objective.

00:13:46:10 - 00:13:57:12

Unknown

That someone like.

00:13:57:14 - 00:14:40:09

Speaker 5

Tonight we are walking toward freedom. When we alienate ourselves, we are walking towards slavery. I contend that the solution of the effort to overcome alienation is ours, and not of the communities. These were the prophetic words of Nestor de la Rosa, who was born in central Mexico and educated in

prestigious Ivy League institutions, who learned how to walk, as we are doing tonight by walking through a foreign culture, a foreign land, as a scholar, an author, an organizer.

00:14:40:11 - 00:15:24:16

Speaker 5

This gone to Americano earned his freedom as a Mexican-American woman. I am following in Donovan's footsteps with inspiration, hope and strength. Doctor Velasco is doctor, a guy Lahsa is whispering to us tonight. The problem is alienation. The solution is ours. I am before you today learning how to share and this is not okay. The problem is slavery. The solution, the solution to freedom is ours.

00:15:24:19 - 00:16:00:16

Speaker 5

The National GI forum professes education is our freedom. And I strongly agree that education is that pathway for the Mexican-American. The education begins in the home with the knowledge of the cultural heritage. The American institutions can teach me integrity, unity, loyalty, respect of others, of elders, family unity. However, they cannot teach me how to be a unique Mexican American.

00:16:00:18 - 00:16:33:07

Speaker 5

Fortunately, I was educated in my home. I know of my ancestors struggles. I know the social problems, the economic problems. I know what makes me special is, is this unique awareness of myself and of my culture. Let education begin in the household and continue on into the institutions. The combination of literal skills and cultural identity has been my solution to my freedom.

00:16:33:09 - 00:17:03:29

Speaker 5

And I am before you today learning how to share and celebrate my freedom with you. Freedom to me constitutes social responsibility, the responsibility to succeed and the dominant culture to participate as a citizen and to respect my cultural heritage. You turn on your television or open up a newspaper, and you learn of enslaved Mexican Americans enslaved with their failures as citizens.

00:17:04:02 - 00:17:41:03

Speaker 5

50% of the Mexican-American students don't even graduate from high school. 46% of Chicano girls under the age of 18 are dealing with unwanted pregnancies. There's the problem of substance abuse. San Jose being the PCP capital of the world, Hispanics representing three out of every 4% of users every 30 minutes. A Hispanic contracts, aids. I look around my classrooms and rarely do I see a fellow Mexican-American.

00:17:41:06 - 00:18:12:11

Speaker 5

It is our job as concerned intelligent citizens to free our people who are struggling. We must set free the reality of enslavement with wisdom and knowledge. Education will give our people the power to make changes and the wisdom to change the realities. They can change. I can only thank the San Jose GI forum for believing in me and in education.

00:18:12:14 - 00:18:47:04

Speaker 5

For education is not only my freedom. Education is our freedom and I salute you. Don't have an answer for your contribution of works and hope. Works and hope which which have made stuff, which have made steppingstones in a struggling cultures pathway towards freedom.

00:18:47:06 - 00:19:22:29

Speaker 5

I contend that the solution of the efforts to overcome alienation is ours and not of the communities. These are the words are the prophetic words of a nest. Bogalusa scholar, author, organizer, México Americano. What was this great man saying? What was his life about? Born in central Mexico, educated at prestigious Ivy League American institutions, his life was about his experiences.

00:19:23:01 - 00:19:58:05

Speaker 5

A man of a foreign culture in a foreign land, a man just like you and me, however, known as Nestor, had a message, a message not only in his words but through his actions. Just as there exists social incongruity today, did it exist in his day? As a young Mexican-American woman, I learn of men such as collage that he is my role model, my inspiration, my hope, and my strength.

00:19:58:07 - 00:20:44:07

Speaker 5

And if you know of Garza, he can be all of these ideas to you and more. The problem is alienation. The solution is ours, he said. The National GI forum professes education is our freedom and I strongly agree education is our solution. For the Mexican-American, the education begins in the home with the knowledge of the cultural heritage. The American institutions cannot teach me integrity, loyalty, respect of elders, family unity, or what it feels like to be Mexican American.

00:20:44:09 - 00:21:16:00

Speaker 5

Fortunately, I was educated in my home. I know of my ancestors struggles. I know of the social problems, the economic problems. I know what makes me special is this awareness of myself and of my culture. Let education begin in the household and continue on into the institutions. The combination of literal skills and cultural identity has been my solution to my freedom.

00:21:16:02 - 00:21:47:04

Speaker 5

And I am before you today to share and celebrate my freedom with you. Freedom to me constitutes social responsibility, the responsibility to succeed and the dominant culture to participate as a citizen and to respect my cultural heritage. You turn on your television or open up a newspaper, and you learn of enslaved Mexican Americans and slaves through their failures as citizens.

00:21:47:06 - 00:22:21:20

Speaker 5

50% of Mexican Mexican-American students do not even graduate from high school. 46% of Chicano girls under the age of 18 are dealing with unwanted pregnancies. There's the there's the problem of substance abuse. San Jose being the PCP capital of the world, Hispanics representing three out of every four PCP users every 30 minutes. A Hispanic contract's eggs. 00:22:21:22 - 00:22:54:23

Speaker 5

It is our job as concerned, intelligent citizens to free our people who are struggling. We must set free the reality of enslavement with wisdom and knowledge. Education will give our people the power to make changes and the wisdom to change the realities they can change. I can only say the San Jose GI forum for believing in me and in education, for education is not only my freedom, it is our freedom.

00:22:54:26 - 00:23:19:18

Speaker 5

And I salute you, Nasco for your contributions of words and hope which have formed stepping stones and a struggling cultures pathway towards freedom.
