

EDUCATION DIVISION

Professors: Burnett (Head), Ballou, F. Brown, Evans, R. H. Harrison, Harton, Kremen, Rippey
 Associate Professors: Bathurst, Bigge, Brewster, Gilbert, Hunt, Leslie, J. Murphy, Wilcox
 Assistant Professors: Avery, Dandoy, Edgar, Fast, Fee, Griffiths, Henfling, Lambert, Lundberg, Mach, J. E. Martin, J. Ch. Manning, McPherran, T. Rae, Sloan, C. Smith
 Part-time: Ham, Snyder, Walton, Wienke

Laboratory School

Principal: Haimbach

Teachers: Bowers (Kindergarten), Gerard (Grade 1), Capper (Grade 2), Bartel (Grade 3), Cady (Grade 4), Hunter (Grade 5), Meeker (Grade 6), Bakkegan (Music)

Librarian: Berry

Nurse: Emmeler

MAJOR AND MINOR

A major in education for the bachelor of arts degree consists of 24 semester units of approved upper division work; a minor consists of 12 semester units of approved upper division work. Those who desire a major or minor in education without a teaching credential must consult the head of the division.

MASTER OF ARTS DEGREE

The graduate program for the master of arts degree in education must include within the 30 units required for the degree at least 18 in education. For specific requirements, consult the head of the division; for general requirements, see page 75.

APPLICATION FOR ADMISSION TO CREDENTIAL PROGRAMS

Students planning to undertake a program of studies leading to a teaching credential must file with the Education Division an application for admission to a credential program. This should be done not later than the second semester of the sophomore year. Students entering the college at the end of the sophomore year should apply on entrance. Students entering the college as junior, senior, or graduate students, should make application prior to entrance. Graduate transfer students must supply the Education Division with a transcript of record of their undergraduate work. Filing of the application enables the student's qualifications for school services to be evaluated. Enrollment in certain of the courses required for the teaching credentials is permitted only to a student who has met the minimum standards set by the State Department of Education and by the college.

Application forms are available at the office of the Education Division.

Special committees on credential program candidacy carefully consider each application. Acceptance for one credential does not imply acceptance for another type of credential. A separate application must be made for each type of credential desired. Acceptance for a credential program does not guarantee the granting of the credential. Acceptable standards must be maintained throughout the college career of the student.

The following minimum requirements apply for acceptance to all types of credential programs:

1. **Intelligence.** Students who fall below the percentile rank of 25 on the college aptitude and reading tests must demonstrate compensating strength in other qualities listed in the following sections.

2. **Scholarship.** The standards in effect at Fresno State College are as follows:

- a. The total college program (including at least a 2.0* average at Fresno State College) according to the credential sought.

| | |
|----------------------|------|
| Kindergarten-Primary | 2.25 |
| General Elementary | 2.25 |
| Special Secondary | 2.25 |
| Junior High | 2.50 |
| General Secondary | 2.50 |

- b. Professional education courses. Candidates must earn at least a 2.0 average in education courses and in each student teaching assignment.
- c. Major and minor(s). In the credential major (and minor or minors for the junior high and general secondary credentials) the student must demonstrate strong subject matter competence.

3. **Professional Aptitude.** Ability to work with pupils, parents, and school officials must be demonstrated in field work assignments.

4. **Physical Fitness.** All candidates for public school credentials must pass a special physical examination by the staff of the College Student Health Services. Each candidate must make an appointment with the college physician and have this examination completed before admission to a credential program is approved.

5. **Language Usage.** Habitual use of clear, accurate, correct and fairly facile language, both oral and written, is required. A pleasing voice and good speech are essential. A special committee examines the oral and written language usage of each student and recommends further training if necessary. Each student must schedule himself to complete both examinations before beginning student teaching. Transfer students should take the speech proficiency test during orientation week.

6. **Personal Character.** Personal traits required in high-grade professional service are expected. These include appearance, dress, poise, force, vitality, social attitudes, cooperativeness, temperament, emotional stability, integrity, and such personal habits and manners as are not offensive to pupils, co-workers and school patrons. Such traits must be verified in writing by faculty members.

7. **Many-sided Interests.** Participation in community enterprises, discussions of social problems, reading, music, conversation, social contacts with people, clubs, hobbies, and travel are considered important.

8. **General Fitness for Teaching.** Weakness in the foregoing items or evidence of unfavorable traits of character or personality will disqualify a student from candidacy for a credential program. Each candidate must secure approval from the Committee on Admission to Credential Programs to continue through any credential program. The committee grants full approval upon completion of all requirements listed above.

BACHELOR OF ARTS DEGREE AND ELEMENTARY CREDENTIALS

The kindergarten-primary credential authorizes the holder to teach in any kindergarten and in grades one, two, and three of any elementary school.

The general elementary credential authorizes the holder to teach in any kindergarten and in any elementary and junior high school through the eighth grade.

* On a four grade-point system.

† English Mechanics of Expression Test Schedule:

Fall Semester, 1961, September 14, October 10, November 13, January 10.
 Spring Semester, 1962, February 1, March 5, April 11, May 8.
